Disclaimer:

All tuning performed on the said car above is for **“Off Road Use Only”**. By making any changes to the PCM/ECM, your cars emissions output will most likely be much greater than stock levels. Testing and tuning on & off the dyno will push your vehicle to its mechanical limits. It is the car owner’s responsibility to ensure that the car above is in good working order and capable of handling the stresses incurred when your car limits are reached. The undersigned agrees to forever hold CustomLS1tuning.com harmless & indemnify against and from all claims, demands, losses, costs, damages, suits, judgments, penalties, expenses, or liability of any kind, or nature whatsoever arising directly, or indirectly out of, or in connection with any custom PCM/ECM programming requested. Car owner is responsible for all shipping charges to and from.

I hereby acknowledge and understand that I am aware of the potential risks involved with tuning on & off the dyno and the I waive any and all claims against CustomLS1tuning.com for ANY damages to my vehicle as a result thereof.
